BURGESS BOARDROOM
Monday June 10th, 2013

Present: Eugene Ball (EB-BAS/ASB)
Jackie Zuill (JZ-Delta)
Lawrence Burchall (LB- Air Canada)
Jeannie Siggins (JS – DCA)
Lisa Wilson (LW-DAO)
Jackie Horsfield (JH-DAO)
Wendall Burchall (WB-DAO)
Tim Mahoney (TM-Renaissance Av)
Robert Scarberry (RS-U.S Customs)
Mark Bourne (MB- Serco)

- **Ground Stops TMI**
 - We all experienced Delays in the 1300-1600 period daily. However TMI can be lifted to accommodate to granted private jets a chance to get out.
 - FBO contact w/tower is the best way to get a heads up on how things are going
 - A large part of the delay experience comes from who is in the center in ZNY.
Same Tools, Same Rules **(LB)**

- **VSSP Update**
 - The completion of the Temp Threshold was June 20th
 - Keeping it there isn't a concern to airlines with the heat
 - Notams are being monitored to reflect accurate work
 - Phase 1 out of three identified places

- **Other Business**
 - Aircraft being pulled to the hold short line –“Not a Problem” (Mark Bourne)
 - Tentative start date was mid of April
 - Part one of phase 1 was the surveying and ultimately removal and relocation of approach lighting.
 - Notams and AIC to be developed and distributed
